

Laurie Gioielli, Vice President, Administration, HMC Companies

With over 25 years experience in the health care industry, Laurie has been involved in many different functional areas including data analysis, account management, marketing, product development, and project management.

Laurie's background in the health care industry includes employee assistance and behavioral health, disease management, prescription drug management, and PPO network development. In her current role with HMC Companies, she is responsible for program implementations, data review and trend analysis for client reporting, and ongoing account retention. In addition, Laurie's responsibilities include ongoing customer service, account management, operations, and administrative oversight to ensure successful management of the company's accounts.
