

Gain control of your pharmacy benefit dollars and enjoy increased savings.

Put financial and decision-making control where it belongs — with you!

The need to manage pharmacy benefit costs, without sacrificing patient quality of care, requires tighter program control. Experience the value of control with *informedRx*, enjoy all of the same benefits of a traditional full-service PBM without losing the focus on your business priorities and objectives.

As a respected leader in healthcare processing services and pharmacy benefit management solutions since 1981, SXC proudly serves the needs of our clients who represent more than 100 million covered lives and more than one billion claims processed annually.

informedRx addresses the increased interest of self-funded managed care union groups, employers and third-party administrators to gain a greater level of decision-making authority and control over their pharmacy benefit dollars.

***informedRx*® offers a client-focused, custom modeling that fits your business**

About SXC Health Solutions

SXC Health Solutions Corp. is a leading provider of pharmacy benefit management (PBM) services and Healthcare Information Technology (HCIT) solutions to the healthcare benefits management industry. The Company's product offerings and solutions combine a wide range of advanced PBM services, software applications, application service provider (ASP) processing services, and professional services. We serve many of the largest organizations in the pharmaceutical supply chain, such as health plans; employers; Federal, provincial, and state governments; pharmacy benefit managers; and retail pharmacy chains. SXC is headquartered in Lisle, Illinois with multiple locations in the U.S.A. and Canada.

Savings, profitability and customer satisfaction through pharmacy spend management

Our clients have experienced significant cost savings and enhanced quality. You too can manage your pharmacy spend with *informedRx*.

An 11,000-member self-funded employer client that left a PBM to partner with *informedRx* experienced:

- 28% reduction in total pharmacy costs achieved through:
 - Advantages of network contracted rates, manufacturer rebates and fees
 - Aligned incentives that drove higher generic and formulary performance
 - Reduction in overall administrative fee
 - Better utilization patterns through targeted pharmacist educational programs
- Per member per month cost reduced by 24% in 60 days past go-live
- Member copay reduced by 10.9%

A 120,000-member client that left a major PBM to partner with *informedRx* experienced:

- 3.0% per-member, per-month increase in cost trend in 2004, as compared to 8.0% - 10.0% PBM industry trend
- 5.5% improvement in the number of lower-cost generic drugs dispensed
- 5.2% improvement in overall discounts
